Ghania Rizwan

Web Developer

To secure a web development internship position where I can apply my knowledge of front-end and backend technologies to create efficient and scalable web applications.

Experience

○ 2020 - 2023

Freelance / remote

Graphic Designer

Created illustrations, logo, vTuber models, vector artwork and face illustration. Specifically tailored for Twitch gaming content.

○ Frontend

Created a tours and travel website and online auction website for a frontend development competition and achieved recognition by securing the Best Web Designer Certificate 2 times.

○ Developed a portfolio website utilizing React.js, incorporating React Three Fiber and Three.js to integrate 3D objects. The website is characterized by high responsiveness and visually appealing design.

○ Backend

Developed a web application using Node.js, Express.js, and EJS as the view engine. The project involved implementing essential functionalities such as user authentication, image uploading, and CRUD operations.

○ Developed an educational Learning Management System (LMS) using Laravel and MySQL as part of a web development competition.

○ CMS - WordPress

undertook the development of a website from its conceptualization, demonstrating the ability to construct a digital platform from the ground up. During this, I gained expertise in customizing WordPress themes and plugins.

Soft Skills

- Communication
- Adaptability
- Problem solving
- Attention to details
- Team work & collaboration
- Critical thinking
